DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Stallman on 12/08/06.

- Claim 50: Inserted the limitation of claim 51 as following: --, and wherein said laser parameter is selected from one or more of the voltage on a storage capacitor, a reset current and a core magnetization -- after "basis".
- Canceled claim 51.
- Claim 52: changed claim 52 depended on claim 50.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 50 has been allowed over the Nakao et al. (2006/0239307) prior art which disclose all limitations of the claims but fail to teach the limitation of "wherein said laser parameter is selected from one or more of the voltage on a storage capacitor, a reset current and a core magnetization".

Art Unit: 2828

Claims 59 has been allowed over the Nakao et al. (2006/0239307) prior art because they fail to teach the limitation of "said jitter compensation circuit receiving second inputs corresponding to slower, non-pulse to pulse variations".

Claims 52-58 and 60-63 have been found allowable due to their dependency on claims 50 and 59.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
